Machine Learning for Email: Spam Filtering and Priority Inbox Drew Conway, John Myles White

If you're an experienced programmer willing to crunch data, this concise guide will show you how to use machine learning to work with email. You'll learn how to write algorithms that automatically sort and redirect email based on statistical patterns. Authors Drew Conway and John Myles White approach the process in a practical fashion, using a case-study driven approach rather than a traditional math-heavy presentation.

This book also includes a short tutorial on using the popular R language to manipulate and analyze data. You'll get clear examples for analyzing sample data and writing machine learning programs with R.

- Mine email content with R functions, using a collection of sample files
- Analyze the data and use the results to write a Bayesian spam classifier
- Rank email by importance, using factors such as thread activity
- Use your email ranking analysis to write a priority inbox program
- Test your classifier and priority inbox with a separate email sample set

From reader reviews:

Margaret Gentile:

Why don't make it to become your habit? Right now, try to prepare your time to do the important work, like looking for your favorite book and reading a book. Beside you can solve your long lasting problem; you can add your knowledge by the publication entitled Machine Learning for Email: Spam Filtering and Priority Inbox. Try to make the book Machine Learning for Email: Spam Filtering and Priority Inbox as your friend. It means that it can being your friend when you experience alone and beside regarding course make you smarter than before. Yeah, it is very fortuned for you personally. The book makes you considerably more confidence because you can know everything by the book. So , we should make new experience in addition to knowledge with this book.

Dominic Loflin:

Here thing why that Machine Learning for Email: Spam Filtering and Priority Inbox are different and trustworthy to be yours. First of all reading through a book is good however it depends in the content from it which is the content is as delicious as food or not. Machine Learning for Email: Spam Filtering and Priority Inbox giving you information deeper including different ways, you can find any e-book out there but there is no guide that similar with Machine Learning for Email: Spam Filtering and Priority Inbox. It gives you thrill looking at journey, its open up your eyes about the thing in which happened in the world which is possibly can be happened around you. You can actually bring everywhere like in playground, café, or even in your technique home by train. Should you be having difficulties in bringing the printed book maybe the form of Machine Learning for Email: Spam Filtering and Priority Inbox in e-book can be your choice.

Anita Jones:

The guide untitled Machine Learning for Email: Spam Filtering and Priority Inbox is the book that recommended to you you just read. You can see the quality of the e-book content that will be shown to a person. The language that author use to explained their way of doing something is easily to understand. The copy writer was did a lot of investigation when write the book, therefore the information that they share to your account is absolutely accurate. You also could get the e-book of Machine Learning for Email: Spam Filtering and Priority Inbox from the publisher to make you much more enjoy free time.

Curtis Waters:

Reading a guide make you to get more knowledge from the jawhorse. You can take knowledge and information from the book. Book is prepared or printed or highlighted from each source this filled update of news. In this particular modern era like right now, many ways to get information are available for anyone. From media social like newspaper, magazines, science book, encyclopedia, reference book, new and comic. You can add your knowledge by that book. Isn't it time to spend your spare time to open your book? Or just searching for the Machine Learning for Email: Spam Filtering and Priority Inbox when you needed it?
