In the northeast region of New York State lies the Adirondack Park: six million breathtaking acres of natural beauty. In the late nineteenth and early twentieth centuries, America's most prominent families came to the area to build the expansive summer retreats known as the Great Camps. Built and decorated with the region's natural resources, the camps reflected the serenity and indelible power of their surroundings--and the rustic Adirondack style was born.

People are once again flocking to the area -- building new vacation retreats or restoring existing camps -- and creating fresh new perspectives on this classic American style. Author Ann Stillman O'Leary takes you through the rich and interesting history of the Adirondacks with an in-depth look at how its trademark building and decorating style is being interpreted today.

The book's introduction, written by Elizabeth Folwell, the editor of Adirondack Life magazine, provides an overview of this distinctive area and the original owners and builders of the Great Camps. The remaining chapters explore the region's finest camps, both inside and out. More than 200 full-color and historical black-and-white photographs highlight all the elements unique to this style, from exterior stonework and twig filligree to interior fabrics and wall decor. A featured section shows how Adirondack furniture uses every bit of the tree, from root and burl to bark and branch, with amazing results. A thorough source guide identifies architects, builders, interior designers, manufacturers, craftspeople, and retail stores featuring camp merchandise, and a list of area lodging lets you experience the Adirondacks firsthand.

Adirondack Style, the first book to take a comprehensive look at rustic design today, celebrates -- in words and images -- a style that is being referenced in homes from Maine to California.
