If You Like the Beatles...: Here Are Over 200 Bands, Films, Records, and Other Oddities That You Will Love Bruce Pollock

(If You Like). The Beatles came up in the rock and-and-roll era, when Chuck Berry, Little Richard, and Elvis Presley defined cool. Their early shows were big beat bacchanals, the Brit interpretation of that crazy American sound. But it wasn't long before they were absorbing and creating more and more music from folk to experimental, to psychedelia and hard rock, quite literally changing music forever and influencing hundreds of great bands in the process. This is the first book for music lovers that begins with the simple premise, "If you like the Beatles . . .," and takes off from there, digging into their influences and everything that came after them, opening up new doors for listeners looking for no-risk discs to expand their collection. Beginning with the Beatles' lesser-known roots in rockabilly and Tin Pan Alley, and working through American R&B, the British Invasion, California folk, and the Summer of Love, and to the great pop and rock bands of the '80s, '90s, and the 21st century, this is a must-have for anyone who likes the Beatles, which is...everyone.

Let me have If You Like the Beatles...: Here Are Over 200 Bands, Films, Records, and Other Oddities That You Will Love.

Debra Weeks:

As a college student exactly feel bored for you to reading. If their teacher questioned them to go to the library or make summary for some guide, they are complained. Just little students that has reading's spirit or real their passion. They just do what the trainer want, like asked to go to the library. They go to there but nothing reading seriously. Any students feel that examining is not important, boring and also can't see colorful photos on there. Yeah, it is being complicated. Book is very important in your case. As we know that on this time, many ways to get whatever we want. Likewise word says, ways to reach Chinese's country. Therefore this If You Like the Beatles...: Here Are Over 200 Bands, Films, Records, and Other Oddities That You Will Love can make you feel more interested to read.
