**Don't Panic with Mechanics!** Oliver Romberg, Nikolaus Hinrichs

There are a lot of textbooks for mechanics - why another one?

Because reading this textbook should be fun - but as a side effect the reader should also learn the basics of mechanics without suffering to much! Or to say it more officially: The scope of the textbook is to teach mechanics by means of simple examples from everyday life instead of sophisticated scientific approaches. The examples, supported by a lot of cartoons, should help to learn by associations and practical experiences. A similar textbook has not existed before - the terms 'mechanics' and 'fun' have always been contradictious.

A strange textbook - is it possible to trust in the authors?

You can trust in the scientific education of the authors. They have taught mechanics for about 10 years at the University of Hanover, Germany and know about the problems involved when students collide with mechanics. However - you should not trust in the authors with respect to their obligation to extraordinary scientific approaches - the authors rigorously eliminate theoretical blow ups. But the authors would be prepared to defuse the humour in some cases if necessary ...

#### **John Yates:**

People live in this new moment of lifestyle always try to and must have the time or they will get wide range of stress from both way of life and work. So , if we ask do people have extra time, we will say absolutely of course. People is human not really a robot. Then we question again, what kind of activity do you have when the spare time coming to you of course your answer will unlimited right. Then do you try this one, reading textbooks. It can be your alternative inside spending your spare time, the book you have read is definitely Don't Panic with Mechanics!.

#### **Tyler Dean:**

As a scholar exactly feel bored for you to reading. If their teacher expected them to go to the library or even make summary for some book, they are complained. Just very little students that has reading's spirit or real their passion. They just do what the professor want, like asked to go to the library. They go to generally there but nothing reading very seriously. Any students feel that studying is not important, boring and can't see colorful photographs on there. Yeah, it is being complicated. Book is very important for yourself. As we know that on this period of time, many ways to get whatever we really wish for. Likewise word says, ways to reach Chinese's country. So , this Don't Panic with Mechanics! can make you really feel more interested to read.
