Introduction to Environment Management M.M. Sulphey

The altering weather conditions, the extinct wild animals, the depleting Ozone layer and shrinking forests are all causes of mismanaged environment. This book gives an insight into environmental management and its ways and measures.

Divided into eight sections the book deals with the major issues like Biodiversity and its role in managing environment, Environmental degradation and its causes and prevention measures. It touches upon the sensitive issue like the diminishing Wildlife Ecosystem, the animals like Tigers, which are on the verge of extinction, and the ways to conserve this ecosystem. The book is also incorporated with real-life case studies to make the topics more lively and realistic. Designed as a text for the postgraduate students of management, this book can be equally useful for the undergraduate students of all disciplines.
