Force and Motion (Star Trek: Deep Space Nine) Jeffrey Lang

A thrilling original novel set in the universe of *Star Trek: The Next Generation / Deep Space Nine!*

In 2367, Captain Benjamin Maxwell of the starship *Phoenix* ordered the destruction of a Cardassian warship and a supply vessel, killing more than six hundred crew members. Maxwell believed that the Cardassians were arming for a new attack on the Federation, and though history eventually proved he was probably correct, the Federation had no choice but to court martial and incarcerate him.

Almost twenty years have passed, and now Maxwell is a free man, working as a maintenance engineer on the private science station *Robert Hooke*, home to crackpots, fringe researchers, and, possibly, something much darker and deadlier. Maxwell's former crewmate, Chief Miles O'Brien, and O'Brien's colleague, Lieutenant Commander Nog, have come for a visit. Unfortunately, history has proven that whenever O'Brien and Nog leave *Deep Space 9* together, unpredictable forces are set into motion...
