## **Learning LaTeX** David F. Griffiths, Desmond J. Higham

This short, well-written book covers the material essential for learning LATEX without any unnecessary detail. It discusses incisive examples that teach LATEX in a powerful yet abbreviated fashion, including the following crucial features: numerous examples of widely used mathematical expressions; complete documents illustrating the creation of articles, reports, and overhead projector slides; troubleshooting tips to help you pinpoint an error; details of how to set up a bibliography and an index; information about LATEX resources available on the Internet. LATEX has become an extremely popular typesetting system and is widely used throughout the sciences. Students may use it to typeset reports and theses (particularly graduate students in any mathematics or computer science discipline). The authors cover LATEX 2e, the latest standard version at the time of publication. An appendix discusses the differences between 2e and the older version, 2.09.

### From reader reviews:

#### **James Kyles:**

Do you certainly one of people who can't read satisfying if the sentence chained inside the straightway, hold on guys this specific aren't like that. This Learning LaTeX book is readable by you who hate those straight word style. You will find the data here are arrange for enjoyable looking at experience without leaving actually decrease the knowledge that want to give to you. The writer connected with Learning LaTeX content conveys the thought easily to understand by many individuals. The printed and e-book are not different in the information but it just different by means of it. So , do you nevertheless thinking Learning LaTeX is not loveable to be your top checklist reading book?

#### **Ronald Jackson:**

Reading a publication tends to be new life style within this era globalization. With studying you can get a lot of information that can give you benefit in your life. Using book everyone in this world can share their idea. Guides can also inspire a lot of people. Many author can inspire their particular reader with their story or maybe their experience. Not only the storyline that share in the publications. But also they write about the information about something that you need example. How to get the good score toefl, or how to teach your children, there are many kinds of book which exist now. The authors on earth always try to improve their expertise in writing, they also doing some analysis before they write to their book. One of them is this Learning LaTeX.

#### **Donald Diaz:**

The book Learning LaTeX has a lot details on it. So when you make sure to read this book you can get a lot of profit. The book was authored by the very famous author. Tom makes some research ahead of write this book. That book very easy to read you can obtain the point easily after reading this book.

#### **Jim Molnar:**

This Learning LaTeX is great book for you because the content which can be full of information for you who have always deal with world and still have to make decision every minute. This specific book reveal it info accurately using great coordinate word or we can declare no rambling sentences inside. So if you are read this hurriedly you can have whole information in it. Doesn't mean it only offers you straight forward sentences but difficult core information with splendid delivering sentences. Having Learning LaTeX in your hand like having the world in your arm, data in it is not ridiculous just one. We can say that no e-book that offer you world throughout ten or fifteen minute right but this e-book already do that. So , it is good reading book. Hey Mr. and Mrs. active do you still doubt which?
