It is no secret that the Church is having some trouble communicating to the modern culture. A lack of understanding and difficulty translating biblical truth into modern language and context has resulted in a mass exodus from the Western Church. Each year, more and more people are falling into "Post-Christianity" - either rejecting the Church, God, or both. This book is designed to help believers better understand the language and presuppositions of contemporary culture, as well as the arguments for God's existence and the reliability of the Bible. Readers of this book can expect to find answers to questions of faith and reason, belief and disbelief, science and religion, and much more. This book will help you learn the art and science of understanding and articulating why you believe what you believe.
