The Cardiovascular System at a Glance

Philip I. Aaronson, Jeremy P. T. Ward, Michelle J. Connolly

The Cardiovascular System at a Glance Philip I. Aaronson, Jeremy P. T. Ward, Michelle J. Connolly

This concise and accessible text provides an integrated overview of the cardiovascular system - considering the basic sciences which underpin the system and applying this knowledge to clinical practice and therapeutics. A general introduction to the cardiovascular system is followed by chapters on key topics such as anatomy and histology, blood and body fluids, biochemistry, excitation-contraction coupling, form and function, integration and regulation, pathology and therapeutics, clinical examination and investigation - all supported by clinical cases for self-assessment. Highly visual colour illustrations complement the text and consolidate learning.

The Cardiovascular System at a Glance is the perfect introduction and revision aid to understanding the heart and circulation and now also features:

- An additional chapter on pulmonary hypertension
- Even more simplified illustrations to aid easier understanding
- Reorganized and revised chapters for greater clarity
- Brand new and updated clinical case studies illustrating clinical relevance and for self-assessment

The fourth edition of *The Cardiovascular System at a Glance* is an ideal resource for medical students, whilst students of other health professions and specialist cardiology nurses will also find it invaluable. Examination candidates who need an authoritative, concise, and clinically relevant guide to the cardiovascular system will find it extremely useful.

A companion website featuring cases from this and previous editions, along with additional summary revision aids, is available at www.ataglanceseries.com/cardiovascular.
