Digital Series. Episode 12:

There's a new government training program intended to get FBI agents into top shape. Equipped with nothing but their wits and an emergency backpack, the participants will be dropped in the vast forests of the northeastern United States. There, they will have to survive a week in the wilderness. Philippa Decker, Zeerookah, and Steve Dillagio are selected as the first group from the New York division. The day before the program begins, Dillagio suddenly calls in sick. Agent Cotton steps in at the last minute as his replacement. What starts out as a relatively carefree expedition turns into a nightmare for the three FBI agents. The first night, they're woken up by the sounds of gunfire. Then they discover the bodies of another team of agents. By then, it's clear to Cotton and the others that someone is using the survival program to carry out a treacherous plan. And that they have been transformed from hunters into the hunted and must fight for their survival.

A new legend is born! COTTON FBI is a remake of a world famous cult series with more than one billion copies sold and appears bi-weekly with a self-contained story in each e-book episode.
