Routledge Library Editions: Development Mini-Set E: Development and the Environment Various

Routledge Library Editions: Development will re-issue works which address economic, political and social aspects of development. Published over more than four decades these books trace the emergence of development as one of the most important contemporary issues and one of the key areas of study for modern social science. The books cover the most important themes within development and include studies of Latin America, Africa and Asia. Authors include Sir Alexander Cairncross, W. Arthur Lewis, Lord Peter Bauer and Cristobal Kay.

An extensive collection of previously hard to access or out of print books, this set presents an unrivalled opportunity to build up a wealth of material in the field of development studies, with a particular focus upon economic and political concerns. The volumes in the collection offer both a global overview of the history of development in the twentieth century, and a huge variety of case studies on the development of individual nations.
