Neonatal Cardiology, Second Edition Michael Artman, Lynn Mahoney , David Teitel

A full-color guide to understanding, evaluating, and treating heart disease in fetuses and newborns

Neonatal Cardiology is the trusted go-to guide for pediatricians and neonatologists needing concise, practical guidance on the evaluation and management of newborns with heart disease and other cardiac functional abnormalities. Focusing on physiology, mechanics, and presentation of congenital heart disease, this full-color resource provides a succinct, yet complete overview of neonatal cardiology.

Neonatal Cardiology opens with discussions of basic aspects of embryology of the heart and a review of normal and abnormal muscle function. From there, you are led through the clinical assessment of patients with an array of cardiac abnormalities. Management and treatment follow, beginning with a basic chapter on the principles of medical management, followed by drug therapy and post-operative care. The book concludes with a chapter on Epidemiology, Etiology, and Genetics of Congenital Heart Disease.

Features:

- Full-color presentation with new radiographic images and explanatory illustrations of normal and abnormal anatomy, blood flow patterns, and the effects of various treatment options
- Suggested readings appear at the end of each chapter for more in-depth study
- Includes coverage of: Excessive pulmonary blood flow, cyanosis, inadequate systemic perfusion, cardiomyopathies, and arrhythmias, Cardiovascular drug therapy, Neurology of congenital heart disease, and Perinatal Cardiovascular Physiology

From reader reviews:

Stacey Eades:

Here thing why that Neonatal Cardiology, Second Edition are different and reputable to be yours. First of all reading a book is good but it really depends in the content from it which is the content is as scrumptious as food or not. Neonatal Cardiology, Second Edition giving you information deeper as different ways, you can find any reserve out there but there is no publication that similar with Neonatal Cardiology, Second Edition. It gives you thrill examining journey, its open up your eyes about the thing which happened in the world which is probably can be happened around you. You can easily bring everywhere like in park your car, café, or even in your method home by train. For anyone who is having difficulties in bringing the imprinted book maybe the form of Neonatal Cardiology, Second Edition in e-book can be your alternate.

Beverly Hummell:

Now a day people that Living in the era just where everything reachable by talk with the internet and the resources within it can be true or not call for people to be aware of each info they get. How many people to be smart in acquiring any information nowadays? Of course the answer is reading a book. Reading a book can help persons out of this uncertainty Information especially this Neonatal Cardiology, Second Edition book because this book offers you rich info and knowledge. Of course the info in this book hundred percent guarantees there is no doubt in it you know.

Mattie Peters:

This Neonatal Cardiology, Second Edition is great e-book for you because the content which is full of information for you who else always deal with world and have to make decision every minute. That book reveal it data accurately using great arrange word or we can point out no rambling sentences inside. So if you are read the item hurriedly you can have whole information in it. Doesn't mean it only will give you straight forward sentences but hard core information with lovely delivering sentences. Having Neonatal Cardiology, Second Edition in your hand like having the world in your arm, information in it is not ridiculous a single. We can say that no publication that offer you world with ten or fifteen small right but this e-book already do that. So , this can be good reading book. Hi Mr. and Mrs. active do you still doubt that will?

Ethel Swafford:

As a college student exactly feel bored to help reading. If their teacher requested them to go to the library or make summary for some reserve, they are complained. Just minor students that has reading's soul or real their passion. They just do what the trainer want, like asked to the library. They go to there but nothing reading very seriously. Any students feel that studying is not important, boring along with can't see colorful pics on there. Yeah, it is to be complicated. Book is very important to suit your needs. As we know that on this time, many ways to get whatever we would like. Likewise word says, ways to reach Chinese's country. So , this Neonatal Cardiology, Second Edition can make you really feel more interested to read.
