Do you want the greatest challenges of the day to be addressed with thoughtful, reality-based solutions rather than with cherry-picked quotations from scripture? Do you want to shrink religion—especially fundamentalist religion—to the point that it plays no noticeable role in American public life? Do you want right-wing religious leaders to be so unpopular that politicians avoid them rather than pander to them for endorsements? Drawing on the latest social-scientific research on religion to help interested nonbelievers—and even progressive believers—weaken the influence of fundamentalist religion in society at large, *How to Defeat Religion in 10 Easy Steps* illustrates specific, actionable steps we all can take to facilitate fundamentalist religion's decline. It covers topics as far ranging as education, welfare, sex, science, capitalism, and Christmas, and each of the 10 chapters focuses on a specific action that research has shown can weaken religion, detailing why and how, and concluding with specific recommendations for individuals, local groups, and national organizations.
