Treatises against the Anabaptists and against the Libertines John Calvin

Calvin's tracts on the Anabaptists and the Libertines contain some of his most significant ethical and theological reflections. In *Against the Anabaptists* Calvin examines that group's rejection of infant baptism, its excommunication of members after the second admonition, its refusal to bear arms, and its withdrawal from politics and government. Calvin's treatise *Against the Libertines* incisively refutes that group's pantheistic determinism, Gnostic Christology, libertine view of Christian liberty, and denial of a future resurrection.
